Resumen

Vendria a ser el resumen. Vamos a poner un resumen? (no es necesario)

Índice

1. <u>Some Interesting Words</u>

Well, and here begins my lovely article.

2. Good Bye World

... and here it ends.

3. *Ecuations Test*

... when Einstein introduced his formula

$$e = m \cdot c^2 \,,\tag{1}$$

which is at the same time the most widely known and the least well understood physical formula. ... from which follows Kirchhoff's current law:

$$\sum_{k=1}^{n} I_k = 0 \,.\tag{2}$$

Kirchhoff's voltage law can be derived ...... which has several advantages.

$$I_D = I_F - I_R \tag{3}$$

is the core of a very different transistor model. ...
